ABOUT ME

Front-End Developer with 3 years of experience and a command of JavaScript and TypeScript. Proficient in building responsive interfaces using React.js, Next.js, Tailwind CSS, and Bootstrap. Combines UI expertise with fundamental backend knowledge for seamless API integration, while applying IT support skills to resolve technical challenges.

EDUCATION

2019-2021

Mary's Child Science Oriented School

Science, Technology, ,Engineering, and Mathematics (STEM) Strand

2021-2025

Bicol University

Bachelor of Science Information Technology

EXPERIENCE

Front-End Developer Intern

Department of Science and Technology (DOST) - Region 5 | Legazpi City, Philippines

February 2025 – June 2025

Tools: Next.JS , Tailwind CSS & Javascript libraries, Chart Js, Rechart Js

Developed a centralized Knowledge Management Portal to streamline the organization and sharing of internal training resources. Implemented features allowing employees to upload materials post-training and track their learning progress via interactive charts. Optimized the user interface for accessibility and established a restore point system to prevent data loss

Junior Full Stack Developer (Contract)

Idea Venture Studio | Los Angeles, CA (Remote)

August 2025 – November 2025

Tools: Next.js, Nest.js, MongoDB, Algolia, Docker, AWS, Contentful

Executed a complete redesign and deployment of the Unity Trials platform using Next.js and Vercel. Engineered robust data pipelines linking ClinicalTrials.gov, MongoDB, and Algolia to enable real-time search functionality. Achieved measurable site speed improvements and implemented comprehensive SEO updates while ensuring data integrity across the system

Front-End Developer (Contract)

Outrank Strategy | Remote (Utah, USA)

Nov 2025 – Present

Tools: React JS, TypeScript, Bootstrap, CSS, Zustand, Vite

Developing front-end modernization of a legacy pest control system into a high-performance B2B SaaS platform. Responsible for translating complex Figma designs into responsive, pixel-perfect code using React.js, TypeScript, and Bootstrap. Architected a scalable multi-tenant interface that handles appointment scheduling and billing automation, utilizing Zustand for efficient state management across data-heavy dashboards.

Shopify Developer (Part Time)

Kawalskamoda | Remote (Netherlands)

January 2026

Tools: Shopify Liquid, HTML5, CSS3, JavaScript,

Provide ongoing technical support for a Shopify e-commerce store, focusing on site stability and user experience. Implement code-level UI/UX fixes using Liquid and CSS to resolve layout inconsistencies and drive Conversion Rate Optimization (CRO) initiatives. Conduct regular SEO audits to identify and fix broken links, metadata errors, and speed bottlenecks. Additionally, manage administrative workflows, including product catalog updates, inventory tracking, and app configurations.
